

John DOE

Industrial Engineer: Electromechanics

 [linkedin.com/in/john-doe-template](#)  +00 123 456 789  john.doe@example.com
 Example Avenue 12, 1000 Brussels, Belgium
 Born on 1 January 1998 — Available for technical roles — Driving licence B

Master's student in Industrial Engineering: Electromechanics (design track, with a focus on automation and machinery) with a strong combination of technical, analytical and hands-on skills. Experienced in 3D CAD modelling, prototyping, assembly and process improvement. Works accurately, thinks in solutions and is comfortable in both project-based and practical production environments. Motivated to turn technical ideas into reliable and well-considered solutions.

EDUCATION

- | | |
|---------------------|---|
| 2020-present | Technical University of Example City — Industrial Engineering: Electromechanics — MSc in progress <ul style="list-style-type: none">➤ Master's thesis (ongoing): Design of a modular conveyor system for flexible intralogistics.➤ Bachelor's project: Design, automation and validation of a compact packaging setup. |
| 2014-2020 | Royal Atheneum of Example City — Science and Mathematics |

WORK EXPERIENCE

- | | |
|--------------------------------|--|
| Summer 2025 | Junior assembler, NORTHWIND SYSTEMS, Antwerp <ul style="list-style-type: none">➤ Assembled machine frames and submodules from component kits to finished installations.➤ Wired, mounted and functionally checked electrical, pneumatic and mechanical components.➤ Supported test setups, troubleshooting and quality checks before delivery.➤ Updated bills of materials and technical documentation to streamline the assembly flow. <div style="display: flex; gap: 5px;">Assemblyelectromechanicspneumaticsquality controldocumentation</div> |
| Internship 2024 | CAD designer, ATLAS MECHANICS, Ghent <ul style="list-style-type: none">➤ Created 3D models and manufacturing drawings for machine parts and simple assemblies.➤ Coordinated with production on tolerances, manufacturability and practical assembly steps.➤ Supported prototyping, measurements and small improvements to existing designs. <div style="display: flex; gap: 5px;">SolidWorkstechnical drawingsprototyping</div> |
| Summers 2022 & 2023 | Workshop assistant, HARBOR ROBOTICS, Bruges <ul style="list-style-type: none">➤ Maintained and prepared test rigs, tools and mechanical subassemblies.➤ Solved minor mechanical issues independently and together with technicians. <div style="display: flex; gap: 5px;">Mechanicsmaintenanceproblem solving</div> |
| Summer 2021 | CNC operator, PRECISION WORKS, Kortrijk <ul style="list-style-type: none">➤ Operated CNC machines and carried out measurements according to specified tolerances.➤ Supported post-processing, quality control and internal parts handling. <div style="display: flex; gap: 5px;">CNCmeasurementquality control</div> |
| 2019-2024 | Service and logistics, VARIOUS EMPLOYERS, Flanders <ul style="list-style-type: none">➤ Completed a range of student jobs in hospitality, event support and warehouse operations.➤ Gained experience in customer contact, teamwork and working under time pressure.➤ Took responsibility in dynamic environments with changing priorities. <div style="display: flex; gap: 5px;">Teamworkcommunicationflexibility</div> |

SKILLS

- | | |
|--------------------|---|
| CAD | SolidWorks, AutoCAD, Inventor |
| Programming | Python, C++, MATLAB, JavaScript |
| Automation | TIA Portal, FluidSIM, EPLAN, RobotStudio, Simulink |
| Other | LaTeX, mechanical design, prototyping, assembly, tolerance analysis |

LANGUAGES

- › **Dutch:** Native speaker (C2)
- › **English:** Very good (C1)
- › **French:** Basic working knowledge (B1)

STRENGTHS

- › Solution-oriented and accurate
- › Collaborative and communicative
- › Curious and well organised
- › Safety- and quality-minded

VOLUNTEER WORK

ENGINEERING STUDENT ASSOCIATION

2022 - PRESENT

As an active member of the student association, I help organise workshops, company events and onboarding activities for new students. I support the practical preparation of events and assist with communication towards participants and partners.

Organisation Communication Teamwork Planning

STEM WORKSHOP MENTOR

2023 - PRESENT

I guide young participants during hands-on workshops on mechanics, programming and basic automation. My focus is on explaining technical topics in an accessible way while maintaining a safe and structured learning environment.

Coaching Presenting Technology Responsibility

FIRST-YEAR STUDENT BUDDY

2021 - 2022

As a buddy, I supported new students during their first semester with practical information, study guidance and signposting to the right support channels. The emphasis was on approachable communication and a smooth start to the programme.

Communication Support Empathy Teamwork

LEISURE ACTIVITIES

- › Fitness
- › Photography
- › DIY technology projects and home automation
